DETAILED ACTION

Examiner's Note

An attempt was made to request election by telephone; the attempt was unsuccessful.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 15-16, 18-24 and 32, drawn to check data recognition, classified in class 382, subclass 137.
- II. Claims 8-14, 17, 25-31 and 33, drawn to bill distribution and payment, classified in class 705, subclass 40.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as actual preparation of an electronic check; invention I is distinctly different because it addresses simple data recognition. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
